In this hilarious and utterly compelling book, travel writer Tim Moore takes us on a whirlwind tour of the world's most bizarre and unwanted destinations. From the world's smallest museum to the world's largest collection of garden gnomes, from a theme park dedicated to toilets to a

museum of bad art, Moore leaves no stone unturned in his quest to find the absolute worst that tourism has to offer.

Along the way, Moore encounters a cast of eccentric characters, including a man who has spent his entire life collecting bottle caps, a woman who claims to have been abducted by aliens, and a group of people who believe that the Earth is flat. He also visits some of the world's most dangerous places, including a town in Colombia that is controlled by drug cartels and a village in India that is home to a group of cannibalistic tribes.

But Moore's journey is not just about finding the worst places on Earth. It's also about exploring the human desire to travel and the lengths that people will go to in search of adventure. Why do we travel? What do we hope to find? And why are we so fascinated by the bizarre and the offbeat?

101 Places Not to See Before You Die is a hilarious and thought-provoking exploration of the dark side of tourism. It's a book that will make you laugh, cringe, and question everything you thought you knew about travel.
