Jennifer Lee was always a dreamer. As a child, she would spend hours gazing up at the stars, wondering what life was like beyond our planet. She dreamed of one day becoming an astronaut and exploring the vastness of space.

But life had other plans for Jennifer. She grew up in a small town in the Midwest, and her family struggled to make ends meet. She went to college on a scholarship, but she had to work two jobs to pay for her tuition and living expenses.

After college, Jennifer got a job as a teacher. She loved working with children, but she couldn't shake the feeling that she was meant for something more. She started to volunteer her time at a local soup kitchen, and she found that she was passionate about helping others.

One day, Jennifer was working at the soup kitchen when she met a woman named Sarah. Sarah was a former NASA astronaut who had retired from the space program. Jennifer was inspired by Sarah's story, and she decided that she wanted to pursue her dream of becoming an astronaut.

Jennifer knew that it would be a long and difficult road, but she was determined to make her dream a reality. She started taking classes at a local community college, and she got involved in a NASA outreach program. She also volunteered her time at a local science museum, where she taught children about space exploration.

In 2017, Jennifer's dream finally came true when she was selected to be a NASA astronaut candidate. She is now training to become a mission specialist, and she hopes to one day fly to the International Space Station.

Jennifer's story is an inspiration to us all. It shows us that anything is possible if we set our minds to it. We may encounter obstacles along the way, but we should never give up on our dreams.

If you are looking for a book that will inspire you to reach for your dreams, then I highly recommend *Finding My Way To The Stars*. Jennifer Lee's story is a testament to the power of perseverance and determination. It will leave you feeling motivated and inspired to make your own dreams a reality.
