Rebecca Cornell was a beautiful, vibrant young woman with her whole life ahead of her. She was a talented artist, a loving daughter, and a loyal friend. But on a cold winter night in 1995, her life was cut tragically short when she was found dead in her apartment, the victim of a brutal murder.

Rebecca's death sent shockwaves through her small community. She was well-liked and respected by everyone who knew her. Her murder seemed senseless and cruel.

The police immediately began an investigation, but they quickly hit a dead end. There were no witnesses to the crime, and no apparent motive. The case went cold, and Rebecca's killer remained at large.

In the years since Rebecca's death, her family and friends have never given up hope that her killer would be brought to justice. They have tirelessly campaigned for answers, and they have never stopped searching for the truth.

In 2015, a new lead emerged in the case. DNA evidence linked a man named Christopher Vaughn to the crime. Vaughn was a drifter with a history of violence. He was arrested and charged with Rebecca's murder.

Vaughn's trial is scheduled to begin in 2019. If convicted, he could face life in prison.

Rebecca's family and friends are hopeful that Vaughn's trial will finally bring them the closure they have been seeking for so long. They want to know who killed Rebecca, and why. They want to see justice done in her name.

The death of Rebecca Cornell is a tragedy that has touched many lives. Her family and friends have suffered an unimaginable loss. But they have never given up hope that her killer would be brought to justice.

The trial of Christopher Vaughn is a major step towards closure for Rebecca's family and friends. They are hopeful that the truth will finally come out, and that Rebecca's killer will be held accountable for his crimes.
