

Leading the Witness: The Conflict of Interest

In the American legal system, the principle of conflict of interest is designed to ensure that lawyers act in the best interests of their clients. However, as the authors of "Leading the Witness" reveal, this principle is often compromised by hidden conflicts of interest that can undermine the integrity of our courts and the pursuit of justice.

Through a series of gripping case studies, the authors expose the ways in which lawyers can be compromised by their own financial interests, their relationships with judges and other lawyers, and their political affiliations. They show how these conflicts of interest can lead to biased decisions, wrongful convictions, and miscarriages of justice.
