In his gripping memoir, *My Year in Space*, astronaut Scott Kelly invites readers on an unforgettable journey aboard the International Space Station. From breathtaking views of Earth to groundbreaking scientific experiments, Kelly's account of his year-long mission offers a captivating glimpse into life beyond our planet.

Through Kelly's vivid prose, readers will experience the awe-inspiring beauty of Earth from above, witnessing the planet's intricate landscapes and fragile ecosystems from a unique perspective. They will also delve into the cutting-edge science conducted on the space station, gaining insights into the human body's adaptation to microgravity and the potential for future space exploration.

Beyond the scientific discoveries, Kelly shares his personal reflections on the profound changes he underwent during his time in space. From the challenges of living in isolation to the growth and resilience he gained, Kelly's journey offers a deeply human perspective on the transformative power of space travel.

With stunning photography and gripping storytelling, *My Year in Space* transports readers to the edge of our planet and beyond. It is a testament to the indomitable spirit of human exploration and a celebration of the scientific and personal triumphs that have shaped our understanding of the cosmos.

Reviews

“ "Scott Kelly's My Year in Space is a captivating and inspiring account of his extraordinary mission aboard the International Space Station. Through his vivid descriptions and personal reflections, Kelly transports readers to the edge of our planet and beyond, offering a unique glimpse into the awe-inspiring beauty of Earth, the groundbreaking science conducted in space, and the profound personal journey of an astronaut living and working beyond Earth."

— Buzz Aldrin, Apollo 11 Astronaut ”

“ "My Year in Space is a must-read for anyone interested in space exploration, science, or simply the human spirit. Scott Kelly's memoir is a thrilling, thought-provoking, and ultimately inspiring account of his year-long mission aboard the International Space Station."

— Bill Nye, Science Educator and Television Host ”
